

HD 200 EURO

2C

2C – Pneumatic Hand Gunning Machine

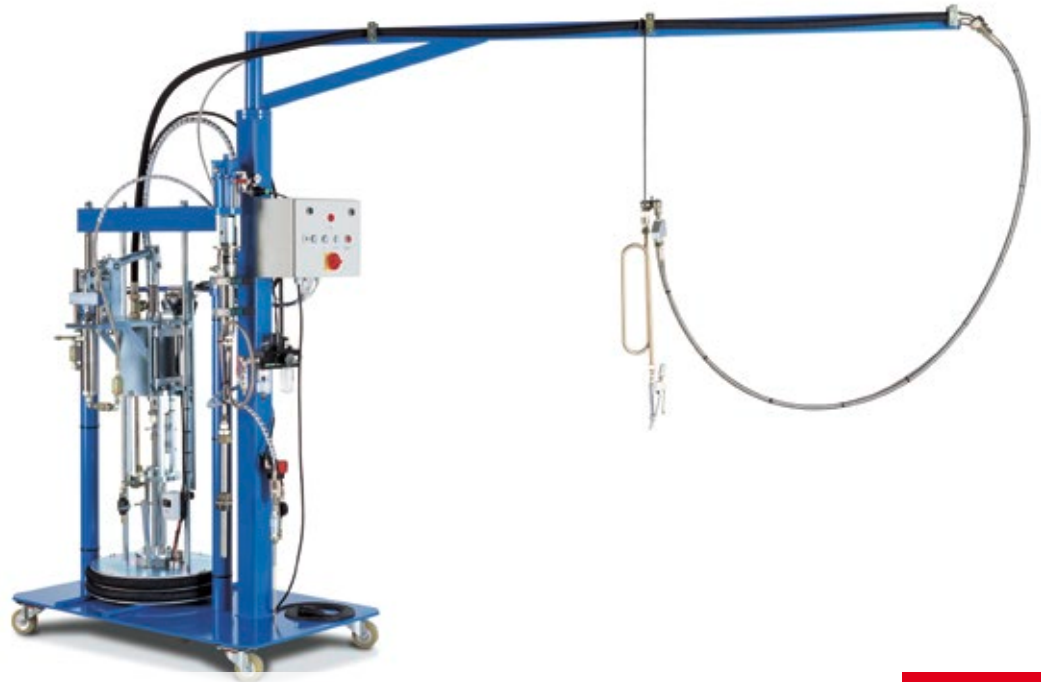

Standard Features:

- Low maintenance pump technology
- Mobile Frame
- Variable mixing ratio
- One Hand mixing ratio control
- Two hand safety operation
- Potlife control
- Boom arm 2500 mm long as standard
- Automatic switch off at excess pressure or lack of material
- Follower plate designed for minimal rest quantity in barrel
- Complete mixing system
- Maintenance friendly machine concept

Pneumatic – Quality in every Detail

Available for PS, PU or silicone

HD 200 EURO

2C

Technical Data:

Output	Approx. 1500 g / min silicone Approx. 1500 g / min (PS) Approx. 2500 g / min (PU)
Electrics	230V / 50Hz Safety Contact 16A
Pneumatics	4 - 8 bar 1/2" max. approx. 700 l / min
Measurements	1.35 x 0.8 x 2.4 m
Weight	Approx. 530 kg
Construction	Mobile
Output control	Completely variable

The HD 200 Euro is a pneumatic hand gunning machine. It combines compact construction with ease of application due to intentionally not using complicated technology. Your advantage: Ease of operation and maintenance.

The pumps are of the same proven quality as those used in the hydraulic versions.

Accessories:

- Purge Pump for solvent cleaning
- Freezer up to - 45°C
- Boom arm with customised length
- Barrel heating system
- "Barrel empty" control
- Rollers for ease of barrel change
- Special colour
- Feed pipes with customised length
