

HD 1K 20 Compact

1C

1C – Pneumatic Hand Gunning Machine

For the processing and application of mono component adhesive sealants, pastes and greases of medium to high viscosity.

Advantages:

- 2 ram system, suitable for high viscous materials
- Adjustable high output
- Range of piping to suit different materials
- Special follower plate
- Transport tube with Z-joint for optimum handling and flexibility
- Well proven sealing gun

Technical Data:

Output:	Up to 1500 g / min (depending on material consistency)
Motor:	pneumatic
Output adjustment:	pneumatic
Construction:	Mobile
Measurements:	500 x 500 x 1400 mm
Weight:	90 kg
